

# LOWE PROPERTY CARE

## Raising Standards: We're Now Achilles Accredited

We are pleased to share that we now have Achilles accreditation, adding to our existing SafeContractor accreditation.

Achieving this accreditation demonstrates our continued commitment to working safely, responsibly and professionally across all areas of our business.

Having both Achilles and SafeContractor in place gives our clients added confidence that we have been independently reviewed and that our systems, procedures and working practices meet recognised industry expectations. We are also demonstrating our commitment to improving how we work and delivering a reliable service to the clients and sites we support!

## Updates at Lowe Property Care

### Maintaining Our Pavements:

- Work has recently been carried out to improve and maintain the pavement area of a client's site.
- The old road signs were removed and safely disposed of, making way for a new post and sign to be installed.
- The new sign has been securely concreted into the ground to ensure it is stable and long-lasting.

### Fire Exit Sign Installation:

- We recently supplied and installed six new fire exits to the rear of a client's site.
- Each post location was dug out to the depth required for the timber posts.
- Once the posts were secure, the fire exit signs were fixed in place, helping improve safety, visibility and emergency wayfinding around the rear of the units.
